

The diagram shows a mechanical assembly. On the left, a vertical plate has two horizontal lines extending from its right side, each ending in a fan-like shape. These lines pass through a horizontal plate. The horizontal plate has a rectangular cutout in its center. To the right of the horizontal plate is a rectangular block with vertical hatching. A horizontal line passes through the center of the assembly, connecting the two fan-like shapes on the left to the rectangular block on the right.
